ABOUT ME

I'm a graduate in computer science with 3 month of experience in Frontend Development using React.JS. I specialize in building scalable and high-performance systems using MERN stack technology. I believe in the power of design excellence and user-centered thinking in every project I undertake. My commitment to innovation and problem-solving drives me to bring my clients' visions to life effectively and efficiently.

WORK EXPERIENCE

Programmer Force (Pvt.) Ltd. | Frontend Developer Intern

Jun 2024 - Aug 2024

- Build the client-side of a website, responsible for creating visual elements like layouts, buttons, menus, forms, and other features that users interact with.
- Transform web application designs into front-end code with HTML, CSS, JavaScript and jQuery.
- Work with back-end developers to integrate UI components with APIs and databases
- Debug errors, troubleshoot issues, and perform routine performance optimizations

PROJECTS

Fitness landing page responsive website using REACT.JS | [GITHUB](#)

- Create a fitness website utilizing React.js. Added essential features like payment plan. This is a dynamic website that featuring users to interact with using Server-Sent Events.

Diet Plan APIs using Node.js | [GITHUB](#)

- Developed APIs for a diet plan website using Node.js that allowing users to easily view meal plans, including breakfast, lunch, and dinner options. Utilized Node.js to ensure smooth performance and scalability.

Weather forecasting Website integrating RESTful APIs | [GITHUB](#)

- Build the weather forecasting website using MERN stack technology integrated with weather APIs. This website predict weather report including temperature, precipitation, humidity, wind speed.

EDUCATION

Comsats University Islamabad. | Bachelor in Computer Science (BSCS)

Feb 2020 - May 2024

- **Course Work:** Object-Oriented Programming (OOP), Data Structures and Algorithms, Database Management System, Software Engineering, Operating Systems, Information Security and Cloud Computing.
- **Final Year Project:** E-commerce website using Amazon API | [GITHUB](#)
- Built an e-commerce website, integrating Amazon API to fetch products details listed on Amazon website using MERN stack technology.

SKILLS

- **TECHNICAL SKILLS:** HTML5 | CSS3 / TAILWIND | JAVASCRIPT | BOOTSTRAP | JQUERY | REACT.JS | VUE.JS | NODE.JS | EXPRESS | MONGO DB | SQL | MYSQL | RESTful APIs | GIT | GITHUB |
- **SOFT SKILLS:** Project management | Time management | Decision-making | Problem Solving | Management | Communication | Teamwork | Creativity

ADDITIONAL INFORMATION

- **Achievements:** 1) Awarded Merit based Laptop under PM Laptop Scheme 2023. 2) Granted fully funded four years undergraduate scholarship, sponsored by HEC.
- **Languages:** 1) English - Professional working proficiency 2) Urdu - Native
- **Hobbies:** 1) Playing Video Games 2) Reading Tech Blogs
